SUMMARY

Frontend Developer with 1+ year of experience building responsive, scalable web applications using React.js, Next.js, and TypeScript. Experienced in developing e-commerce platforms, AI-powered applications, and real-time dashboards while optimizing performance, improving load times by up to 40%, and reducing unnecessary re-renders by 30%. Skilled in Redux Toolkit, Tailwind CSS, Firebase, REST APIs, and modern frontend engineering practices.

EDUCATION

Bachelor of Computer Application, University of Rajasthan
Jaipur, Rajasthan

2023-2026

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, React Router, Redux Toolkit, Context API, Tailwind CSS, Bootstrap

UI & Frontend: Responsive Design, Accessibility, User-Interface design, Component Architecture, GSAP, Framer Motion, React Three Fiber (Three.js)

State & APIs: TanStack Query, Axios, RESTful APIs, Firebase (Firestore + Auth)

Database & Auth: MongoDB, JWT Authentication

Development Tools: Git, GitHub, GitHub Actions, Vercel, NPM, VS Code **Soft Skills:** Problem Solving, Troubleshooting, Team Collaboration, Communication, Agile Development

EXPERIENCE

Frontend Developer

Fonix Technologies

Dec 2025 - Present

Jaipur (On-Site)

- Built and shipped a production e-commerce platform using React.js and Redux Toolkit, developing reusable UI components for product catalogs, filtering, shopping cart, and authentication workflows.
- Developed responsive interfaces using React.js, Tailwind CSS, and JavaScript, ensuring consistent user experiences across different screen sizes.
- Optimized component rendering and state management, reducing unnecessary re-renders by 30% and improving performance across key user flows.
- Debugged UI issues, API integration problems, and component-level bugs while collaborating with backend developers and designers in an Agile environment.

MERN Stack Intern

Edutantr

Aug 2025 - Nov 2025

Bangalore, Karnataka

- Developed responsive React.js interfaces for a restaurant ordering platform, implementing menu browsing, cart management, and order submission workflows.
- Integrated RESTful APIs with React components and managed application data to support reliable order processing and user interactions.
- Participated in code reviews, debugging, and pair programming while following frontend development best practices.

Frontend Development Intern

Bharat Intern

Jan 2025 - March 2025

Virtual

- Developed a personal portfolio website and a Netflix UI clone using React.js, focusing on component structure and responsive layouts.

- Managed deadlines independently while continuously improving frontend skills through hands-on projects.

PROJECTS

SendHub – Marketing Automation Platform

React, Node.js, MongoDB, Twilio, Nodemailer

- Built a full-stack multi-channel campaign management platform with the MERN stack, orchestrating email and SMS broadcasts with robust scheduling and dynamic template management.
- Integrated Twilio and Nodemailer for seamless email/SMS delivery, enabling reliable multi-channel outreach at scale.
- Developed a real-time analytics dashboard with Recharts, giving users data-driven visibility into campaign engagement and performance.

AI Resume Analyzer

Next.js, Gemini API, Framer Motion

- Engineered an AI-powered resume analyzer using Google Gemini API to evaluate ATS compatibility, skill gaps, and job-fit scoring with actionable improvement suggestions across 15+ criteria.
- Implemented an intelligent job description matching algorithm to generate compatibility scores and identify missing keywords.
- Implemented robust error handling and fallback mechanisms to gracefully handle API failures and rate limits.

High-Performance Blog Platform

Next.js, MongoDB, React Three Fiber

- Architected a full-stack blogging platform using Next.js and React, implementing responsive UI components, authenticated CRUD operations, and media uploads.
- Optimized SSR/ISR and frontend rendering, reducing initial load time by 40% and improving application performance.
- Implemented JWT-based authentication with HTTP-only cookies and refresh token rotation for secure session management.
